Gesis Roadshow

Support Options for Your Research

Instructor: Dr Johannes Blumenberg, Dr Frederic Gerdon, Kerstin Hollerbach, Dr Haiko Lietz

Date & Time: Tuesday 7th of July 2026, 1.00 p.m. to 3.00 p.m. (s.t.)

Place: Online via Zoom

Registration: To register, please send an email to courses.bagss@uni-bamberg.de by Monday, June 01, 2026. Registration is mandatory.

Short Outline

From Research for Research: This session highlights support options for your own research and thesis work and introduces the following support services:

- Survey data and digital behavioral data for secondary analyses
- Collection, processing, and analysis of digital behavioral data and linking potentials to survey data
- GESIS training courses and seminars.

Content:

Four experts will present:

- Introduction: What is GESIS?
- GESIS – Datasets / Data search / Special survey programs
- Tools & methods for collecting and analyzing digital behavioral data
- We share our knowledge: GESIS training

The respective content will be presented in a talk followed by a discussion. Further information will be provided on the landing page.

The workshop mainly aims at doctoral members using quantitative-empirical methods. In case of any vacant places, it is open to anyone interested.

About the Trainers

[Dr Johannes N. Blumenberg](#) studied political science and sociology and received his PhD from the University of Mainz. He has been working at GESIS since 2023 together with Dr. Agathe Gebert as Department Head of the Knowledge Exchange and Outreach (KEO) Department.

[Dr Frederic Gerdon](#) is a social scientist researching the responsible use of data and of data-driven technologies (e.g., "AI"). He researches how we can design and foster data practices and data-driven technologies in a way that promotes societal benefits, safeguards the privacy and freedom of individuals, and avoids negative effects on social inequalities.

[Kerstin Hollerbach](#) is a political scientist who works in the service strategy and engineering department at Gesis

[Dr Haiko Lietz](#) is a sociologist who works as a computational social scientists' consultant at Gesis and coordinates Gesis-Services. His research focuses on social networks.
